

Custom Coin Minting

Introducing the Kitchen Lingua custom coin print! Available in Chocolate, Copper, and Silver!
What better gift and token of appreciation is there than a custom coin?

There are third party printers that can do both chocolate gelt and metal pressing in bulk. Did you know metal coin presses can operate up to 100 tons of pressure (200,000 lb)? Rare coins are a 11 and a half billion dollar a year market.

Market Rates

Coin-USA, a large private custom coin press and printing service ranging from Gold to Aluminum. Another reputable printer offers plain nickel custom design printing for about 2.99 each coin when you purchase between 100 and 299 coins, 1.5 inches large each. Alternatively, you could spend several thousand dollars on a good hydraulic press and custom coin molds and make your own.

For Chocolate coins, you can get custom printed coins from Foiled Again for about 35 cents per coin.
